PROFILE

Marketing generalist with 3+ years of experience across B2B technology, SaaS, and IT services. Experienced in taking marketing work from brief to execution across positioning, messaging, campaign content, creative assets, landing pages, sales collateral, email campaigns, and social channels. Combines hands-on content and design work with campaign execution, CRM workflows, and performance tracking. Comfortable coordinating across teams and translating products into clear, audience-focused communications.

CORE COMPETENCIES

Go-to-market support • Positioning & messaging • Marketing communications • Campaign planning & execution • Creative direction • Website & landing-page content • Sales enablement • Business development support • Email campaigns & lifecycle marketing • CRM and audience segmentation • Social media strategy • Performance-led iteration

PROFESSIONAL EXPERIENCE

Brookbytes | Part-time Marketing, Sales & Business Development *2026 – Present*

- Built the company website, shaping its positioning, messaging, and creative direction to present the business clearly to prospective customers.
- Supporting marketing, sales, and business development activities as the company develops its go-to-market approach.

Aegis Softtech | Contract Content Writer *April 2026 – Present*

- Create B2B technology content for IT decision-makers across Microsoft technologies, enterprise software, AI, data, and business applications.
- Research search results, AI-generated answers, and industry sources to identify audience intent, content gaps, and useful communication angles.
- Translate technical subjects into clear, business-oriented content while managing research, outlining, writing, and editing independently.

Atlas Systems | Marketing Executive *February 2025 – February 2026*

- Led messaging and design direction for a demo-page revamp focused on improving the conversion experience and inbound lead quality.
- Conceived the GTM initiative for a SQL Server 2016 End of Support playbook, then wrote and designed the PDF, built the landing page, created the email campaign, and partnered with the digital marketing team on Google Ads and campaign creatives.
- Managed LinkedIn strategy, copywriting, and visual design, contributing 2,455 new organic followers in 311 days and growing the page to 10,768 followers.
- Created the sales deck used by the sales team to progress a lead generated through the playbook campaign; that lead converted into a closed deal.
- Ran content-format experiments using FAQs, glossary pages, and TL;DR sections to test ways to improve brand visibility in AI-generated answers.

Skcript | Growth Marketing Specialist *February 2024 – August 2024*

- Owned lifecycle and re-engagement campaigns across audience segmentation, email, and CRM workflows, reactivating approximately 30 churned users, with 12 returning to paid subscriptions.
- Built and launched trigger-based HubSpot email workflows based on lifecycle stage and user behaviour.
- Grew the company LinkedIn page from 300 to 3,500 followers organically in three months through content and engagement initiatives.
- Created sales enablement messaging and presentations with Customer Success to support customer conversations and product adoption.
- Built and enriched a database of 1,000+ ICP-fit contacts using LinkedIn Sales Navigator, Apollo, and Clay, maintaining segmentation, deduplication, and CRM hygiene.
- Developed a podcast experiment from concept to execution and proposed a Product Manager community as a new audience-building channel.

Prudent AI | Content Specialist *July 2023 – January 2024*

- Developed nine blog posts and a technical e-book as part of content marketing efforts associated with a 100% increase in demo sign-ups.
- Created LinkedIn advertising copy and visual assets that supported follower growth from 500 to 2,000.
- Ran targeted e-book promotion that generated 20 leads at a reported 10% conversion rate.
- Translated technical product concepts into content for business and technology audiences.

Freelance | Content & Marketing Projects *2024 – Present*

- Deliver content and marketing design for SaaS and IT brands across blog content, LinkedIn, website copy, pitch decks, and sales collateral.
- Take projects from brief through research, messaging, writing, and visual execution.
